3	Terms and definitions .....	5
4	Principle .....	5
5	Apparatus .....	6
6	Reagents and media .....	6
6.1	General .....	6
6.2	Non ionic wetting agent .....	6
6.3	Nutrient medium for the preparation of <i>Bacillus subtilis</i> spores .....	6
6.3.1	Composition .....	6
6.3.2	Preparation .....	6
6.4	Nutrient medium of Sabouraud for the preparation of <i>Aspergillus niger</i> spores .....	7
6.4.1	Composition .....	7
6.4.2	Preparation .....	7
6.5	Nutrient medium for the inhibition test with <i>Bacillus subtilis</i> .....	7
6.5.1	Composition .....	7
6.5.2	Preparation .....	7
6.6	Nutrient medium of modified Sabouraud for the inhibition test with <i>Aspergillus niger</i> .....	8
6.6.1	Composition .....	8
6.6.2	Preparation .....	8
6.7	Tryptone salt solution .....	8
6.7.1	Composition .....	8
6.7.2	Preparation .....	8
6.8	Test microorganisms .....	8
6.8.1	General .....	8
6.8.2	Preparation of working cultures .....	8
6.8.3	Preparation of inoculating spore suspension of <i>Bacillus subtilis</i> .....	9
6.8.4	Preparation of inoculating spore suspension of <i>Aspergillus niger</i> .....	9
6.8.5	Concentrations of spores for inhibition test .....	9
6.9	Positive controls .....	10
6.9.1	Antibiotic .....	10
6.9.2	Antifungal agent .....	10
7	Sampling and preparation of test pieces .....	10
8	Procedure .....	10
8.1	General .....	10
8.2	Preparation of plates .....	10
8.2.1	General .....	10
8.2.2	Test with <i>Bacillus subtilis</i> .....	10
8.2.3	Test with <i>Aspergillus niger</i> .....	11
8.3	Incubation .....	11
9	Evaluation .....	11

10	Test report .....	12
	<b>Annex A (informative) Guidelines for interpreting results .....</b>	<b>13</b>
A.1	General .....	13
A.2	Negative and positive controls .....	13
A.2.1	Negative controls .....	13
A.2.2	Positive controls .....	14
A.3	Paper and board samples .....	15
A.3.1	General .....	15
A.3.2	Case of <i>Bacillus subtilis</i> .....	15
A.3.3	Case of <i>Aspergillus niger</i> .....	19
