Foreword 3

Introduction 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 5

4 Principle 7

5 Reagents 7
5.1 Test substance 7
5.2 Saturated magnesium nitrate solution 7
5.3 Saturated sodium chloride solution 7

6 Test panel 8

7 Test conditions 8

8 Equipment 8
8.1 General 8
8.2 Vessels 8
8.3 Petri dishes 8
8.4 Supports for the Petri dishes in the glass jars 8
8.5 Small glass dishes or odourless plastic disposable dishes 8
8.6 Spoons 8
8.7 Evaluating forms 9
8.8 Water and glasses or drinking cups 9

9 Sampling and storage of sample 9

10 Preparation of sample 9

11 Procedure 9

12 Evaluation 10
12.1 General procedure 10
12.2 Triangle test 10
12.3 Extended triangle test 10
12.4 Multicomparison test 11

13 Expression of results 11
13.1 Calculation 11
13.1.1 Significance of taint (triangle and extended triangle test) 11
13.1.2 Intensity of taint (extended triangle and multicomparison test) 11
13.2 Result 11

14 Test report 11

Annex A (informative) Example of an efficient cleaning procedure 12

Annex B (informative) Example of an assembly for the storage of test pieces and test substance ... 13

Annex C (informative) Example of an evaluation form for extended triangle test 14

Annex D (normative) Triangle test significance table 15
