ISO 7263-1:2018 (E)

Corrugating medium — Determination of the flat crush resistance after laboratory fluting — Part 1: A-flute

Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms and definitions

4 Principle

5 Apparatus

6 Sampling

7 Conditioning

8 Preparation of test pieces

9 Procedure

- 9.1 General
- 9.2 Testing immediately after fluting
- 9.3 Testing after 30 min of reconditioning
- 9.4 Fluting and testing

10 Expression of results

- 10.1 Flat crush resistance

11 Test report

Annex A (informative) Maintenance of fluting rolls (horizontal type)

Annex B (informative) Precision data
