## Clothing and equipment for protection against heat - Test method for convective heat resistance using a hot air circulating oven

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Principle .....	2
5	Apparatus .....	3
6	Specimens .....	4
7	Calibration of test oven .....	5
7.1	Temperature and air velocity uniformity .....	5
7.2	Daily .....	5
8	Procedures .....	5
8.1	Procedure for flat textile or other sheet materials .....	5
8.2	Procedure for protective gloves .....	6
8.3	Procedure for protective footwear .....	6
8.4	Procedure for protective helmets and eye or face protection devices .....	7
8.5	Procedures for small items and accessories on clothing .....	7
9	Test report .....	8
Annex A (normative) Temperature uniformity and time constant of hot air circulating oven .....		9
Bibliography .....		10
