| Foreword .....   | v  |
| Introduction .....   | vi |
| 1 Scope .....  | 1  |
| 2 Normative references .....   | 1  |
| 3 Terms and definitions .....  | 1  |
| 4 Terms and vocabulary of clothing .....   | 1  |
| 4.1 General terms and definitions of textile and clothing .....                        | 1  |
| 4.2 Terms and definitions of body dimensions and ergonomics .....                      | 3  |
| 4.3 Terms and definitions of components, materials, finishing .....                    | 10 |
| 4.4 Terms and definitions of design and construction .....                             | 14 |
| 4.5 Terms and definitions of product types .....                                       | 15 |
| 4.6 Terms and definitions of test methods, attributes, ageing .....                    | 16 |
| 5 Terms and vocabulary of protective clothing .....                                    | 19 |
| 5.1 General terms and definitions of protective clothing .....                         | 19 |
| 5.2 Terms and definitions of product types .....                                       | 20 |
| 5.3 Terms and definitions of components and materials .....                            | 21 |
| 5.4 Terms and definitions of risks and hazards .....                                   | 21 |
| 5.5 Terms and definitions of test methods .....  | 22 |
| 6 Terms and vocabulary of protection against heat and flame hazards .....              | 22 |
| 6.1 General terms and definitions of protection against heat and flame hazards .....   | 22 |
| 6.2 Terms and definitions of product types .....                                       | 22 |
| 6.3 Terms and definitions of components and materials .....                            | 23 |
| 6.4 Terms and definitions of risks and hazards .....                                   | 23 |
| 6.5 Terms and definitions of test methods .....  | 25 |
| 7 Terms and vocabulary of protection against chemical hazards .....                    | 29 |
| 7.1 General terms and definitions of protection against chemical hazards .....         | 29 |
| 7.2 Terms and definitions of product types .....                                       | 29 |
| 7.3 Terms and definitions of components and materials .....                            | 30 |
| 7.4 Terms and definitions of risks and hazards .....                                   | 30 |
| 7.5 Terms and definitions of test methods .....  | 31 |
| 8 Terms and vocabulary of protection against foul weather, wind and cold hazards ..... | 34 |
| 8.1 General terms and definitions of protective clothing .....                         | 34 |
| 8.2 Terms and definitions of product types .....                                       | 34 |
| 8.3 Terms and definitions of components and materials .....                            | 34 |
| 8.4 Terms and definitions of risks and hazards .....                                   | 34 |
| 8.5 Terms and definitions of test methods .....  | 34 |
| 9 Terms and vocabulary of protection against mechanical hazards .....                  | 34 |

|                       |   |    |
|-----------------------|---|----|
| 9.1                   | General terms and definitions of protection against mechanical hazards .....                | 34 |
| 9.2                   | Terms and definitions of product types .....  | 35 |
| 9.3                   | Terms and definitions of components and materials .....                                     | 36 |
| 9.4                   | Terms and definitions of risks and hazards .....  | 36 |
| 9.5                   | Terms and definitions of test methods .....   | 37 |
| 10                    | Terms and vocabulary of protection against infective agent hazards .....                    | 41 |
| 10.1                  | General terms and definitions of protection against infective agent hazards .....           | 41 |
| 10.2                  | Terms and definitions of product types .....  | 41 |
| 10.3                  | Terms and definitions of components and materials .....                                     | 41 |
| 10.4                  | Terms and definitions of risks and hazards .....  | 41 |
| 10.5                  | Terms and definitions of test methods .....   | 41 |
| 11                    | Terms and vocabulary of diving protective clothing .....                                    | 42 |
| 11.1                  | General terms and definitions of diving protective clothing .....                           | 42 |
| 11.2                  | Terms and definitions of product types .....  | 43 |
| 11.3                  | Terms and definitions of components and materials .....                                     | 44 |
| 11.4                  | Terms and definitions of risks and hazards .....  | 45 |
| 11.5                  | Terms and definitions of test methods .....   | 45 |
| 12                    | Terms and vocabulary of protection against hazards due to lack of visibility .....          | 45 |
| 12.1                  | General terms and definitions of protection against hazards due to lack of visibility ..... | 45 |
| 12.2                  | Terms and definitions of product types .....  | 46 |
| 12.3                  | Terms and definitions of components and materials .....                                     | 46 |
| 12.4                  | Terms and definitions of risks and hazards .....  | 46 |
| 12.5                  | Terms and definitions of test methods .....   | 46 |
| 13                    | Terms and vocabulary of protection against electrostatic hazards .....                      | 46 |
| 13.1                  | General terms and definition of protection against electrostatic hazards .....              | 46 |
| 13.2                  | Terms and definitions of product types .....  | 47 |
| 13.3                  | Terms and definitions of components and materials .....                                     | 47 |
| 13.4                  | Terms and definitions of risks and hazards .....  | 47 |
| 13.5                  | Terms and definitions of test methods .....   | 47 |
| 14                    | Terms and vocabulary of protection against electrical arc hazards .....                     | 48 |
| 14.1                  | General terms and definition of protection against electrical arc hazards .....             | 48 |
| 14.2                  | Terms and definitions of product types .....  | 49 |
| 14.3                  | Terms and definitions of components and materials .....                                     | 49 |
| 14.4                  | Terms and definitions of risks and hazards .....  | 50 |
| 14.5                  | Terms and definitions of test methods .....   | 50 |
| 15                    | Terms and vocabulary of Selection, Use, Care and Maintenance (SUCAM) .....                  | 50 |
| 16                    | Terms and vocabulary of electronics .....   | 51 |
| Annex A (informative) | Index of terms numbers with the corresponding French and German translations .....          | 54 |
| Bibliography          | .....   | 67 |
| Index                 | .....   | 69 |
