## Applications of statistical and related methods to new technology and product development process - Part 8: Guidelines for commercialization and life cycle

---

| <b>Contents</b>    |  | <b>Page</b> |
|--------------------|--|-------------|
| Foreword .....     |  | vi          |
| Introduction ..... |  | vii         |
| 1                  | Scope .....  | 1           |
| 2                  | Normative references .....   | 1           |
| 3                  | Terms and definitions .....  | 1           |
| 4                  | Basic concepts of QFD .....  | 1           |
| 5                  | Integration of QFD and product development methods .....                                   | 2           |
| 5.1                | QFD support for product development methods .....  | 2           |
| 5.2                | Flow of product development with QFD .....   | 2           |
| 5.3                | Customers and stakeholders .....   | 2           |
| 6                  | Types of QFD projects .....  | 2           |
| 7                  | QFD team membership .....  | 2           |
| 7.1                | QFD uses cross-functional teams .....  | 2           |
| 7.2                | Core team membership .....   | 2           |
| 7.3                | Subject matter experts .....   | 2           |
| 7.4                | QFD team leadership .....  | 2           |
| 8                  | Lifestyle and emotional quality deployment .....   | 4           |
| 8.1                | Kansei engineering .....   | 4           |
| 8.2                | Setting product image strategy .....   | 4           |
| 8.3                | Identifying stakeholders and customers .....   | 4           |
| 8.4                | Visiting customers and stakeholders to understand context of use .....                     | 4           |
| 8.5                | Interviewing and doing ethnographies to understand customer lifestyle and self-image ..... | 5           |
| 8.6                | Deriving lifestyle words with a customer lifestyle table .....                             | 5           |
| 8.7                | Affinity diagram of lifestyle words .....  | 6           |
| 8.8                | Hierarchy diagram of lifestyle words .....   | 6           |
| 8.9                | Identifying product attributes and set up experimental trials .....                        | 7           |
| 8.9.1              | Selecting product concepts to be evaluated .....   | 7           |
| 8.9.2              | Creating survey of concepts and lifestyle words .....                                      | 7           |
| 8.10               | Statistical analysis of customers' evaluations of products .....                           | 9           |
| 8.11               | Deploy to design and development .....   | 10          |
| 9                  | Component deployment .....   | 10          |
| 9.1                | General .....  | 10          |
| 9.2                | Modern Blitz QFD® and the maximum value table (MVT) .....                                  | 11          |
| 9.3                | Functional requirements-components matrix .....  | 11          |
| 9.3.1              | Purpose of the functional requirements-components matrix .....                             | 11          |
| 9.3.2              | Building the functional requirements-components matrix .....                               | 11          |
| 9.4                | Component-sub-function matrix and value engineering .....                                  | 13          |
| 9.4.1              | Purpose of the component-sub-function matrix .....   | 13          |
| 9.4.2              | Building the component-sub-function matrix .....   | 13          |
| 9.4.3              | Value analysis (VA) .....  | 15          |
| 9.4.4              | Value engineering (VE) .....   | 16          |

|        |   |    |
|--------|---|----|
| 9.5    | Function-subassembly and component matrix .....                         | 17 |
| 9.5.1  | Purpose of the function-components matrix .....                         | 17 |
| 9.5.2  | Building the function-component matrix (unweighted) .....               | 17 |
| 9.6    | Subsystem-components matrix .....                                       | 17 |
| 9.6.1  | Purpose of the subsystem-components matrix .....                        | 17 |
| 9.6.2  | Building the subsystem-components matrix .....                          | 18 |
| 9.7    | Component-failure mode matrix .....                                     | 19 |
| 9.7.1  | Purpose of the component-failure mode matrix .....                      | 19 |
| 9.7.2  | Building the component-failure mode matrix .....                        | 19 |
| 9.8    | Component failure mode and effects analysis (FMEA) .....                | 19 |
| 9.8.1  | General .....   | 19 |
| 9.8.2  | Risk priority number (RPN) calculation .....                            | 20 |
| 9.9    | Quality assurance (QA) table .....                                      | 24 |
| 9.9.1  | Purpose of the QA table .....   | 24 |
| 9.9.2  | Building the QA table .....   | 24 |
| 10     | Production method (manufacturing and process) deployment .....          | 24 |
| 10.1   | General .....   | 24 |
| 10.1.1 | Objective .....   | 24 |
| 10.1.2 | Composition .....   | 25 |
| 10.2   | Modern Blitz QFD® and the maximum value table (MVT) .....               | 25 |
| 10.3   | Components-manufacturing operations matrix .....                        | 26 |
| 10.3.1 | Purpose of the components-manufacturing operations matrix .....         | 26 |
| 10.3.2 | Building the components-manufacturing operations matrix .....           | 26 |
| 11     | Testing, validation, design review, and prototyping .....               | 27 |
| 11.1   | General .....   | 27 |
| 11.2   | Testing .....   | 27 |
| 11.2.1 | Purpose of components-test matrix .....                                 | 27 |
| 11.2.2 | Building the components-test matrix .....                               | 27 |
| 11.3   | Validation .....  | 28 |
| 11.3.1 | General .....   | 28 |
| 11.3.2 | Focus groups .....  | 28 |
| 11.3.3 | Kano surveys .....  | 28 |
| 11.3.4 | Conjoint analysis .....   | 28 |
| 11.4   | Design review .....   | 29 |
| 11.5   | Prototyping .....   | 29 |
| 12     | Production planning .....   | 29 |
| 12.1   | General .....   | 29 |
| 12.2   | Process capability .....  | 29 |
| 12.2.1 | Cp .....  | 29 |
| 12.2.2 | Cpk .....   | 30 |
| 12.3   | Optimize process .....  | 30 |
| 12.4   | Make-or-buy decision .....  | 30 |
| 12.5   | Project work or task management .....                                   | 31 |
| 13     | Build and process planning .....  | 32 |
| 13.1   | General .....   | 32 |
| 13.2   | Quality control (QC) process planning table .....                       | 32 |
| 13.3   | Quality control (QC) tables for component production and assembly ..... | 33 |
| 13.4   | Process FMEA .....  | 34 |
| 13.5   | Work standards .....  | 35 |
| 13.5.1 | QC process table based work standard .....                              | 36 |
| 13.5.2 | L-matrix based work standard .....                                      | 36 |
| 13.6   | Other tools and methods .....   | 38 |
| 14     | Build .....   | 38 |
| 14.1   | General .....   | 38 |
| 14.2   | Applicable tools and methods .....                                      | 38 |

|               |  |           |
|---------------|--|-----------|
| <b>15</b>     | <b>Packaging design, logistics, channel management, consumer information, and operating instructions .....</b> | <b>39</b> |
| <b>15.1</b>   | <b>Functional packaging .....</b>  | <b>39</b> |
| <b>15.2</b>   | <b>Aesthetics and packaging .....</b>  | <b>39</b> |
| <b>15.3</b>   | <b>Logistics .....</b>   | <b>39</b> |
| <b>15.4</b>   | <b>Marketing claims .....</b>  | <b>39</b> |
| <b>15.5</b>   | <b>Marketing collateral, operating instructions, service and repair documents, service parts .....</b>         | <b>40</b> |
| <b>16</b>     | <b>Customer support .....</b>  | <b>40</b> |
| <b>16.1</b>   | <b>General .....</b>   | <b>40</b> |
| <b>17</b>     | <b>Customer satisfaction .....</b>   | <b>41</b> |
| <b>17.1</b>   | <b>Customer satisfaction surveys .....</b>   | <b>41</b> |
| <b>17.2</b>   | <b>Reporting customer satisfaction results .....</b>   | <b>42</b> |
| <b>17.3</b>   | <b>Tying customer satisfaction results back to project goals .....</b>   | <b>43</b> |
| <b>18</b>     | <b>Product end-of-life disposal, recycle, reuse, and other sustainability concerns .....</b>                   | <b>43</b> |
| <b>19</b>     | <b>Flow to next generation development .....</b>   | <b>45</b> |
| <b>19.1</b>   | <b>Generational improvements with modern Blitz QFD® .....</b>  | <b>45</b> |
| <b>19.2</b>   | <b>Generational improvements with comprehensive QFD .....</b>  | <b>45</b> |
| <b>19.2.1</b> | <b>General .....</b>   | <b>45</b> |
| <b>19.2.2</b> | <b>Updating comprehensive QFD .....</b>  | <b>46</b> |
| <b>20</b>     | <b>Quality assurance network .....</b>   | <b>47</b> |
| <b>20.1</b>   | <b>Objective .....</b>   | <b>47</b> |
| <b>20.2</b>   | <b>Composition .....</b>   | <b>47</b> |
|               | <b>Bibliography .....</b>  | <b>49</b> |
