

DIN EN 17952:2024-08 (E)

Value Management - Function Analysis: Basic characteristics, Requirements and guidance for implementation; English version EN 17952:2024

Contents		Page
European foreword		4
Introduction		5
1	Scope.....	8
2	Normative references.....	9
3	Terms, definitions and abbreviated terms.....	9
4	Function Analysis overview	14
4.1	Context for Function Analysis	14
4.2	Function Analysis: a system approach	15
4.3	Function Analysis with its two distinct areas	16
4.3.1	General.....	16
4.3.2	Functional Need Analysis.....	19
4.3.3	Technical Function Analysis	20
4.4	Essential conditions for successful Function Analysis	21
4.4.1	Essential Conditions for success.....	21
4.4.2	Roles and contributions of the involved people	21
4.5	Function Thinking	22
5	Application of Function Analysis.....	22
5.1	General.....	22
5.2	Level of analysis	23
5.2.1	General.....	23
5.2.2	Top Management level of the organization: Vision and Strategy	23
5.2.3	Management level.....	23
5.2.4	Operational level.....	24
5.2.5	Day-to-Day Management.....	24
5.3	Integrating with other Disciplines.....	24
5.3.1	Risk management and Dependability	24
5.3.2	Sourcing and Procurement.....	25
5.3.3	Systems and Software Engineering	25
5.3.4	Innovation Management	25
5.3.5	Organization corporate social responsibility.....	26
6	Requirements for effective application of Function Analysis.....	26
6.1	General.....	26
6.2	Scope study.....	27
6.3	Identify functions and constraints.....	28
6.4	Organize the functions	30
6.5	Characterize the functions.....	30
6.6	Prioritizing the functions.....	31
6.7	Estimating efficiency of potential solutions.....	31
7	Requirements applicable to Function Analysis deliverables.....	32
7.1	General.....	32
7.2	Requirements applicable to Functional Need Analysis (FNA) deliverables	32
7.2.1	General.....	32
7.2.2	Study Scope	32
7.2.3	Description of the overall need.....	33

7.2.4	Search for identification and description of functions	34
7.2.5	Contribution to the definition and validation of the solution	37
7.2.6	Use of Functional Need Analysis.....	39
7.3	Requirements applicable to Technical Function Analysis (TFA) deliverables	39
7.3.1	General	39
7.3.2	Expected contributions	39
7.3.3	Study Scope	40
7.3.4	Description of the need to be satisfied	40
7.3.5	Description of functions.....	40
7.3.6	Contribution to the definition and validation of the solution	43
7.3.7	Use of Function Analysis for market testing and Competitive Advantage	46
Annex A (informative) Guidance applicable to the approach and methods of Function Analysis		48
