## Small craft - Hull construction and scantlings - Part 6: Structural arrangements and details

---

| <b>Contents</b>    |  | <b>Page</b> |
|--------------------|--|-------------|
| Foreword .....     |  | v           |
| Introduction ..... |  | vi          |
| 1                  | Scope .....  | 1           |
| 2                  | Normative references .....                               | 1           |
| 3                  | Terms and definitions .....                              | 1           |
| 4                  | Symbols .....  | 3           |
| 5                  | General .....  | 4           |
| 6                  | Structural arrangement .....                             | 4           |
| 6.1                | Stiffening .....   | 4           |
| 6.2                | Hull girder strength .....                               | 7           |
| 6.3                | Load transfer .....                                      | 7           |
| 6.4                | Determination of stiffener spans .....                   | 11          |
| 6.5                | Window mullions .....                                    | 13          |
| 6.6                | Sailboat mast support .....                              | 14          |
| 7                  | Specific structural details for FRP construction .....   | 14          |
| 7.1                | Local reinforcement .....                                | 14          |
| 7.2                | Bonding .....  | 16          |
| 7.3                | Major joints .....                                       | 21          |
| 7.4                | Laminate transition .....                                | 25          |
| 7.5                | Sandwich construction .....                              | 25          |
| 7.6                | Attachment of fittings .....                             | 25          |
| 7.7                | Engine seatings and girders .....                        | 25          |
| 7.8                | Hull drainage .....                                      | 28          |
| 8                  | Specific structural details for metal construction ..... | 28          |
| 8.1                | Design details .....                                     | 28          |
| 8.2                | End connections .....                                    | 28          |
| 8.3                | Increased hull plating .....                             | 28          |
| 8.4                | Protective keel .....                                    | 28          |
| 8.5                | Hull drainage .....                                      | 29          |
| 8.6                | Machinery spaces .....                                   | 29          |
| 8.7                | Good practice welding standards .....                    | 29          |
| 8.8                | Good practice for riveting or adhesive bonding .....     | 29          |
| 9                  | Good practice on laminated wood .....                    | 30          |
| 9.1                | Edge sealing .....                                       | 30          |
| 9.2                | Plywood orientation .....                                | 30          |
| 9.3                | Local scantlings .....                                   | 30          |
| 9.4                | Alternative criteria .....                               | 31          |
| 10                 | Consideration of other loads .....                       | 31          |
| 11                 | Other structural components .....                        | 31          |
| 11.1               | General .....  | 31          |

|   |   |    |
|---|---|----|
| 11.2  | Rudder structure and connection .....                           | 31 |
| 11.3  | Keel attachment .....   | 32 |
| 11.4  | Introduction and distribution of rigging loads .....            | 32 |
| 11.5  | Other structural components not considered in other parts ..... | 32 |
| Annex A (normative) Structural arrangements for category C and D boats .....                                |   | 33 |
| Annex B (informative) Determination of shear stresses within a stiffener with glued or riveted joints ..... |   | 35 |
| Annex C (informative) Good practice welding procedure .....   |   | 41 |
| Annex D (informative) Longitudinal strength analysis .....  |   | 47 |
| Bibliography .....  |   | 52 |
