Ships and marine technology - Guidelines for the installation of ship communication networks for ship board equipment and systems

Contents	Page
Foreword	iv
Introduction	v
1 Scope	1
2 Normative references	1
3 Terms and definitions	1
4 Abbreviations	3
5 Network system architecture	3
5.1 Network system design	3
5.2 Network interface for shipboard equipment and systems	5
5.3 Equipment constituting communication network system	6
6 Data requirements	8
6.1 General	8
6.2 Meaning of data and description of structure	8
6.3 Data attribute definitions	10
6.4 Data delivery format	11
7 Network administration requirements	12
7.1 Network administration requirements and definitions	12
7.2 Network administration scope	12
7.3 Network administration items	13
7.4 Requirements for network monitoring devices	13
7.5 Requirements for network nodes	14
8 Operational guidelines	15
8.1 Notes for network operations	15
8.2 Notes for exchanging data	16
8.3 System maintenance	17
9 Installation procedure	17
9.1 General	17
9.2 Network installation procedure	17
9.3 Cabling procedure for network cables	21
9.4 Network testing procedure	22
10 Testing	24
10.1 General	24
10.2 Testing procedure	24
10.3 Network device connection testing	25
10.4 Inter-node connection testing	26
10.5 Testing of network monitoring devices and functionality	26
Annex A (informative) Implementation of the content provided in this International Standard	28
Bibliography	61
