

# DIN EN 16865:2016-12 (E)

## Inland navigation vessels - Connections and assembled hoses for the transfer of potable water

---

<b>Contents</b>		<b>Page</b>
European foreword .....		4
Introduction .....		5
1	Scope .....	6
2	Normative references .....	6
3	Terms and definitions .....	6
4	Technical requirements .....	7
4.1	General information .....	7
4.2	Components .....	7
4.2.1	General information .....	7
4.2.2	Fixed connection .....	9
4.2.3	Pipe connector .....	10
4.2.4	Dummy coupling .....	11
4.2.5	Pipe .....	11
4.2.6	Retrofitting connection .....	11
4.3	Dimensions .....	13
4.4	Connection configuration .....	13
5	Materials .....	14
5.1	General information .....	14
5.2	Pipe with thread connection and connector .....	14
5.3	Pipe .....	14
6	Instructions for use .....	14
7	Description .....	14
7.1	Supply side connection for storing potable water .....	14
7.2	Pipeline for storing potable water .....	14
7.3	Consumer side connection for storing potable water .....	14
7.4	Retrofitting connection .....	15
8	Labelling .....	15
8.1	Pipe .....	15
8.2	Connection for storing potable water .....	15
Bibliography .....		16
Figures	Figure 1 -- Overview of potable water transfer, here the example has a fixed connection on the supply side, a pipeline and a fixed coupling on the consumer side .....	8
Figure 2 -- Overview of potable water transfer, here the example has a fixed pipeline connected on the supply side and a retrofitting coupling on the consumer side .....		9
