Ships and marine technology - Specifications for gas detectors intended for use on board ships - Part 1: Portable gas detectors for atmosphere testing of enclosed spaces

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	2
4	Specification of portable gas detectors for atmosphere testing of enclosed spaces	2
4.1	General requirements	2
4.1.1	Gases required to be measured	2
4.1.2	Method of measurement	3
4.1.3	Basic performance	3
4.1.4	Portability	4
4.2	Sensitivities, indications, and alarms	4
4.3	Robustness and electrical safety	4
4.4	Marking and manual	4
4.4.1	Marking	4
4.4.2	Instruction manual	5
4.4.3	Testing	5
