

# ISO 15401:2000-02 (E)

## Ships and marine technology - Bulk carriers - Construction quality of hull structure

---

<b>Contents</b>		<b>Page</b>
Foreword .....		v
Introduction .....		vi
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Quality control through construction .....	2
4.1	Steel material .....	2
4.2	Steel processing .....	2
4.3	Fitting and assembly .....	3
4.4	Welding .....	4
4.5	Tightness test .....	5
4.6	Coating .....	6
5	Hull construction accuracy .....	7
5.1	Steel material .....	7
5.2	Marking .....	9
5.3	Cutting .....	10
5.4	Bending .....	12
5.5	Fitting and assembly .....	15
5.6	Welding .....	21
5.7	Flatness and finishing .....	23
5.8	Principal dimensions and deformation .....	28
5.9	Draught and freeboard .....	29
5.10	Coating .....	30
6	Hull construction reports .....	33
7	Documentation on board .....	34
Table 1 --	Surface defects of steel plates .....	7
Table 2 --	Lamination of steel plate .....	8
Table 3 --	Minus tolerance in thickness for plates of hull structure .....	8
Table 4 --	Surface defects of casting steel .....	8
Table 5 --	Position deviation of marking .....	9
Table 6 --	Deviation of marking dimensions of parts and members .....	9
Table 7 --	Deviation of marking dimension of block structure .....	9
Table 8 --	Surface roughness of gas cutting .....	10
Table 9 --	Notches of gas cutting .....	10

<b>Table 10 -- Deviation of gas cutting dimension .....</b>	<b>11</b>
<b>Table 11 -- Deviation of shearing dimension .....</b>	<b>11</b>
<b>Table 12 -- Deviation of planed and milled edges .....</b>	<b>12</b>
<b>Table 13 -- Deviation of flanging .....</b>	<b>12</b>
<b>Table 14 -- Deviation of corrugated plate .....</b>	<b>12</b>
<b>Table 15 -- Deviation of channelled plate .....</b>	<b>13</b>
<b>Table 16 -- Bending deviation of sections and built-up profiles .....</b>	<b>13</b>
<b>Table 17 -- Bending deviation of shell plates .....</b>	<b>14</b>
<b>Table 18 -- Heating .....</b>	<b>14</b>
<b>Table 19 -- Position deviation of fillet-welding joints .....</b>	<b>15</b>
<b>Table 20 -- Deviation of lap-welding joints .....</b>	<b>15</b>
<b>Table 21 -- Deviation of butt welding joints .....</b>	<b>16</b>
<b>Table 22 -- Distance between welds .....</b>	<b>17</b>
<b>Table 23 -- Accuracy of installation dimensions for flat and curved sub-assemblies .....</b>	<b>18</b>
<b>Table 24 -- Accuracy of installation dimensions of block assemblies .....</b>	<b>19</b>
<b>Table 25 -- Accuracy of installation dimensions of block assemblies of stern frame .....</b>	<b>20</b>
<b>Table 26 -- Accuracy of installation dimensions of assemblies including main engine foundation ...</b>	<b>20</b>
<b>Table 27 -- Assembly deviation on the shipway/dock .....</b>	<b>21</b>
<b>Table 28 -- Deviation of welding bead dimensions .....</b>	<b>21</b>
<b>Table 29 -- Weld under-cut .....</b>	<b>22</b>
<b>Table 30 -- Deviation of dimensions of fillet welds .....</b>	<b>22</b>
<b>Table 31 -- Short bead, tack-welding bead and repairing bead .....</b>	<b>22</b>
<b>Table 32 -- Arc-strike .....</b>	<b>23</b>
<b>Table 33 -- Welded joint distortion .....</b>	<b>23</b>
<b>Table 34 -- Local flatness .....</b>	<b>24</b>
<b>Table 35 -- Overall flatness .....</b>	<b>24</b>
<b>Table 36 -- Straightness of inner stiffeners .....</b>	<b>25</b>
<b>Table 37 -- Staging sockets and lifting eye pieces .....</b>	<b>25</b>
<b>Table 38 -- Temporary pieces .....</b>	<b>26</b>
<b>Table 39 -- Holes made erroneously .....</b>	<b>27</b>
<b>Table 40 -- Repairing by insert piece .....</b>	<b>28</b>

<b>Table 41 -- Deviation of principal dimensions .....</b>	<b>28</b>
<b>Table 42 -- Deformation of hull form .....</b>	<b>29</b>
<b>Table 43 -- Deviation of draught .....</b>	<b>29</b>
<b>Table 44 -- Deviation of freeboard .....</b>	<b>29</b>
<b>Table 45 -- Pretreatment of steel surface .....</b>	<b>30</b>
<b>Table 46 -- Application of shop primer .....</b>	<b>30</b>
<b>Table 47 -- Cleanliness after second derusting .....</b>	<b>31</b>
<b>Table 48 -- Surface cleaning before coating .....</b>	<b>32</b>
<b>Table 49 -- Quality of coating .....</b>	<b>33</b>
<b>Table 50 -- Film thickness of coating .....</b>	<b>33</b>
