ISO 22548:2021 (E)

Ships and marine technology — Performance test procedures for LNG fuel gas supply systems (FGSS) for ships

Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms and definitions

4 Test arrangement

- 4.1 Test preparation
- 4.2 Test fluid
- 4.3 Test parameters

5 Test procedure

- 5.1 Safety test
- 5.1.1 Test of e.g. alarm and safety devices
- 5.1.2 Cryogenic function tests
- 5.1.3 ESD and blow down test
- 5.2 Performance test

6 Additional tests

- 6.1 Unit production test
- 6.2 Type test
- 6.3 Endurance test

7 Test report

Annex A (informative) LNG fuel gas supply systems (FGSS) test report — Example

Annex B (informative) Typical examples of LNG FGSS within the scope of the test
