## Ships and marine technology - Rate of turn indicators

---

| <b>Contents</b>     |                                                     | <b>Page</b> |
|---------------------|-----------------------------------------------------|-------------|
| <b>Foreword</b>     |                                                     | <b>iv</b>   |
| <b>1</b>            | <b>Scope</b>                                        | <b>1</b>    |
| <b>2</b>            | <b>Normative references</b>                         | <b>1</b>    |
| <b>3</b>            | <b>Terms and definitions</b>                        | <b>1</b>    |
| <b>4</b>            | <b>Construction</b>                                 | <b>2</b>    |
| 4.1                 | General                                             | 2           |
| 4.2                 | Indication                                          | 2           |
| 4.3                 | Range scales                                        | 2           |
| 4.4                 | Illumination and lighting                           | 3           |
| 4.5                 | Type of indicator                                   | 3           |
| 4.6                 | Alert                                               | 3           |
| <b>5</b>            | <b>Performance requirements</b>                     | <b>3</b>    |
| 5.1                 | Accuracy                                            | 3           |
| 5.2                 | Operation                                           | 3           |
| 5.3                 | Insulation resistance and high voltage              | 3           |
| <b>6</b>            | <b>Methods of testing and required test results</b> | <b>4</b>    |
| 6.1                 | Construction                                        | 4           |
| 6.2                 | Environmental tests                                 | 4           |
| 6.3                 | Accuracy test                                       | 4           |
| 6.4                 | Operation test                                      | 4           |
| 6.5                 | Insulation resistance and high voltage test         | 4           |
| 6.6                 | Alert test                                          | 4           |
| <b>7</b>            | <b>Interface</b>                                    | <b>4</b>    |
| <b>8</b>            | <b>Marking and identification</b>                   | <b>5</b>    |
| <b>9</b>            | <b>Information</b>                                  | <b>5</b>    |
| <b>Bibliography</b> |                                                     | <b>6</b>    |
