Plastics - Application of spread of flame test to plastic pipes

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Principle 1

5 Test apparatus 1

6 Test specimen 2
6.1 General 2
6.2 Number of test specimens 2
6.3 Thickness of the test specimen 2
6.4 Rigid pipes 2
6.5 Flexible pipes 4

7 Conditioning of specimens 4

8 Test procedures 4
8.1 General 4
8.2 Additional test procedures for pipes 4

9 Calculation of the test results 5

10 Precision of the test 5

11 Test report 5

Annex A (informative) Example of the test results on plastic pipes 7
