Plastics - Application of spread of flame test to plastic pipes

| Contents | | Page |
|--|--|-------------|
| Foreword | | iv |
| Introduction | | v |
| 1 | Scope | 1 |
| 2 | Normative references | 1 |
| 3 | Terms and definitions | 1 |
| 4 | Principle | 1 |
| 5 | Test apparatus | 1 |
| 6 | Test specimen | 2 |
| 6.1 | General | 2 |
| 6.2 | Number of test specimens | 2 |
| 6.3 | Thickness of the test specimen | 2 |
| 6.4 | Rigid pipes | 2 |
| 6.5 | Flexible pipes | 4 |
| 7 | Conditioning of specimens | 4 |
| 8 | Test procedures | 4 |
| 8.1 | General | 4 |
| 8.2 | Additional test procedures for pipes | 4 |
| 9 | Calculation of the test results | 5 |
| 10 | Precision of the test | 5 |
| 11 | Test report | 5 |
| Annex A (informative) Example of the test results on plastic pipes | | 7 |
| Bibliography | | 10 |
