## Ships and marine technology - Jacking system appliances on self-elevating unit - Acceptance tests

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Acceptance test requirements .....	2
4.1	Test location .....	2
4.1.1	Components test of jacking system .....	2
4.1.2	Overall test .....	2
4.2	Testing personnel .....	2
4.3	Test document .....	2
5	Test conditions .....	2
5.1	Self-elevating unit condition .....	2
5.2	Jacking system condition .....	2
5.3	Environmental condition .....	3
5.4	Test requirements .....	3
6	Test contents and methods .....	3
6.1	Alarm and indicator testing .....	3
6.1.1	Test .....	3
6.1.2	Test method .....	3
6.1.3	Qualification .....	4
6.2	Jacking test of legs .....	4
6.2.1	Test method .....	4
6.2.2	Qualification .....	4
6.3	Pre-loading test .....	5
6.3.1	Test method .....	5
6.3.2	Qualification .....	5
6.4	Leg pulling test .....	5
6.4.1	Test method .....	5
6.4.2	Qualification .....	6
6.5	Full stroke jacking test (optional) .....	6
6.5.1	Test method .....	6
6.5.2	Qualification .....	6
7	Test report .....	7
Annex A (informative)	Test report format .....	8
