Ships and marine technology - Publish-subscribe architecture on ship-shore data communication - General requirements

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Abbreviated terms	3
5	General requirements for publish-subscribe architecture on ship-shore data communication	4
5.1	General	4
5.2	Sequence diagram	5
6	Requirements for security management	6
6.1	General requirements	6
6.2	Application layer authentication	6
6.3	Authorization for topic permission	8
6.4	Data encryption by transport layer security	8
7	General requirements for message format	8
7.1	General requirements	8
7.2	Topic name	9
7.2.1	General	9
7.2.2	Topic naming definition	9
7.2.3	Topic name of data type	10
7.3	Data model	14
7.3.1	General	14
7.3.2	Header of data model	15
7.3.3	Payload of data model	15
8	Functional requirements for data management	29
8.1	Data backup	29
8.2	Data recovery	29
8.3	Log and event storage management	29
Annex A (informative)	Examples of data taxonomy	30
