

ISO 18741:2026-02 (E)

Ship and marine technology - High-manganese austenitic steel - Specification for high-manganese austenitic steel forgings for cryogenic temperature

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Abbreviated terms	3
5	Health, safety and quality requirements	3
5.1	Health and safety requirements	3
5.2	Quality requirements	3
6	Material designation	4
7	Manufacture	4
7.1	Steel making	4
7.2	Forging	4
8	Chemical composition	4
9	Heat treatment	5
10	Mechanical properties	6
10.1	Preparation of test specimens	6
10.2	Extent of testing	6
10.3	Mechanical properties	7
10.3.1	General	7
10.3.2	Tensile testing	7
10.3.3	Impact testing	7
10.4	Retesting	8
11	Inspection	8
11.1	General requirements	8
11.2	Visual inspection	8
11.3	Liquid penetrant inspection	9
11.4	Ultrasonic inspection	9
11.5	Hydrostatic testing	9
12	Repairs	10
13	Dimension	10
14	Traceability, handling and packing	10
15	Documentation	10
Bibliography		12
