Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Designation 1

4 Test pieces and preparation 2

5 Number of test pieces 2

6 Test bench 2

7 Test performance 2
7.1 Installation of test pieces 2
7.2 Preparation 3
7.3 Measured values and measuring points 3
7.4 Commencement of test 4
7.5 Test temperatures 4
7.6 Test pressures 4
7.7 Test duration 4
7.8 Heat flux 4

8 Assessment 4

9 Test certificate 5

Annex A (normative) Test certificate 6

Annex B (informative) Evidence of suitability of other pipeline components via representative nominal bores 7

Annex C (informative) Pipeline components that can be fire-test qualified using this International Standard 8
