## Ships and marine technology - Pyrotechnic life-saving appliances - Testing, inspection and marking of production units

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative reference(s) .....	1
3	Term(s) and definition(s) .....	1
4	General requirements .....	2
4.1	Manufacturing standards .....	2
4.2	Visual appearance and craftsmanship .....	2
4.3	Markings .....	2
4.4	Documentation .....	3
5	Performance requirements .....	3
5.1	Rocket parachute flare .....	3
5.2	Hand flare .....	4
5.3	Buoyant smoke signal .....	4
5.4	Lifebuoy self-activating smoke signal .....	4
5.5	Line-throwing appliances .....	5
6	Test procedures .....	5
6.1	Luminous intensity measurement .....	5
6.2	Thrust versus time measurement .....	5
6.3	Altitude measurement .....	6
6.4	Temperature cycle test .....	6
6.5	Water immersion test .....	6
6.6	Cold temperature test .....	7
6.7	Hot temperature test .....	7
6.8	Smoke density measurement .....	7
6.9	Smoke colour comparison .....	8
6.10	Burn time measurement .....	8
6.11	Line throwing appliance function test .....	8
Annex A (informative)	Production testing and inspection procedures .....	9
