

ISO 15736:2006-01 (E)

Ships and marine technology - Pyrotechnic life-saving appliances - Testing, inspection and marking of production units

Contents	Page
Foreword	iv
Introduction	v
1 Scope	1
2 Normative reference(s)	1
3 Term(s) and definition(s)	1
4 General requirements	2
4.1 Manufacturing standards	2
4.2 Visual appearance and craftsmanship	2
4.3 Markings	2
4.4 Documentation	3
5 Performance requirements	3
5.1 Rocket parachute flare	3
5.2 Hand flare	4
5.3 Buoyant smoke signal	4
5.4 Lifebuoy self-activating smoke signal	4
5.5 Line-throwing appliances	5
6 Test procedures	5
6.1 Luminous intensity measurement	5
6.2 Thrust versus time measurement	5
6.3 Altitude measurement	6
6.4 Temperature cycle test	6
6.5 Water immersion test	6
6.6 Cold temperature test	7
6.7 Hot temperature test	7
6.8 Smoke density measurement	7
6.9 Smoke colour comparison	8
6.10 Burn time measurement	8
6.11 Line throwing appliance function test	8
Annex A (informative) Production testing and inspection procedures	9
