|-----------------------|---------------------------------------------------------------------|-------------|
| Foreword .....        |                                                                     | iv          |
| 1                     | Scope .....                                                         | 1           |
| 2                     | Normative references .....                                          | 1           |
| 3                     | Terms and definitions .....                                         | 1           |
| 4                     | Performance .....                                                   | 3           |
| 4.1                   | General .....                                                       | 3           |
| 4.2                   | Constituents .....                                                  | 3           |
| 4.3                   | Functional requirements .....                                       | 3           |
| 4.4                   | Safety precautions .....                                            | 7           |
| 5                     | Type testing .....                                                  | 7           |
| 5.1                   | Testing and required results .....                                  | 7           |
| 5.2                   | Magnetic compass safe distance test .....                           | 7           |
| 5.3                   | EMC and environmental tests .....                                   | 7           |
| 5.4                   | Change-over from automatic to manual steering mode .....            | 7           |
| 5.5                   | Control characteristics .....                                       | 8           |
| 6                     | Marking and identification .....                                    | 9           |
| 7                     | Information .....                                                   | 9           |
| Annex A (normative)   | Ship-motion simulator .....                                         | 10          |
| Annex B (informative) | Equivalent requirements in ISO/FDIS 11674 and IMO Resolutions ..... | 12          |
| Bibliography .....    |                                                                     | 13          |
