

ISO 18946:2011-12 (E)

Imaging materials - Reflection colour photographic prints - Method for testing humidity fastness

Contents		Page
Foreword		v
Introduction		vi
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Requirements	2
5	Outline of test procedure	2
6	Sample preparation	3
6.1	General	3
6.2	Test target	4
6.3	Printer driver setting	5
6.4	Printing conditions	5
6.5	Sample conditioning	5
7	Humidity exposure	6
7.1	Equipment and calibration	6
7.2	Test environment control	6
7.3	Method A -- Fixed humidity condition	7
7.4	Method B -- Multiple humidity conditions	7
7.5	Method C -- Fixed low-humidity condition	7
8	Colorimetric measurement	7
9	Data analysis	8
10	Test report	9
10.1	General	9
10.2	Samples information	9
10.3	Test conditions	9
10.4	Results	9
Annex A (informative) Correspondence to psychophysical evaluation		11
