ISO/TS 20490:2024-03 (E)

Measuring autofocus repeatability of sharpness and latency

Contents

Page

Foreword ... iv

Introduction ... v

1 Scope ... 1

2 Normative references ... 1

3 Terms and definitions and abbreviated terms ... 1

4 Test description ... 2

4.1 General ... 2

4.2 Test device settings ... 2

4.3 Environmental conditions ... 2

4.4 Apparatus and hardware ... 2

4.5 Test distance ... 4

4.6 Test charts ... 4

4.6.1 General ... 4

4.6.2 Recommended test charts ... 5

4.7 Test conditions ... 5

4.8 Sharpness measurement ... 6

5 Autofocus measurement ... 6

5.1 General ... 6

5.2 Camera test position and distances ... 6

5.3 Capture test sequence ... 6

5.3.1 Test sequence for continuous autofocus (AF-C) ... 6

5.3.2 Test sequence for single autofocus (AF-S) ... 7

6 Presentation of results ... 10

6.1 Result figure ... 10

6.2 Reporting the results ... 11

Annex A (informative) **Test setup and chart details** ... 12

Annex B (informative) **Test software and algorithm details: sharpness estimation algorithm** ... 14

Annex C (informative) **User reaction time test results during photo capture** ... 17

Annex D (informative) **Correlation between subjective sharpness and sharpness score** ... 20

Bibliography ... 21
