

# ISO 7589:2002-02 (E)

## Photography - Illuminants for sensitometry - Specifications for daylight, incandescent tungsten and printer

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	ISO sensitometric illuminants .....	2
4.1	General .....	2
4.2	ISO sensitometric daylight illuminant .....	2
4.3	ISO sensitometric studio tungsten illuminant .....	3
4.4	ISO sensitometric photoflood illuminant .....	3
4.5	ISO sensitometric printer illuminant .....	3
5	Camera films: Spectral distribution index (ISO/SDI) .....	3
5.1	General .....	3
5.2	Weighted spectral sensitivity values .....	3
5.3	Calculation of the ISO/SDI .....	3
5.4	Tolerances for ISO/SDI .....	4
6	Black-and-white papers: Spectral distribution index (ISO/SDI) .....	4
6.1	General .....	4
6.2	Weighted spectral sensitivity values .....	4
6.3	Calculation of the ISO/SDI .....	4
6.4	Tolerances for ISO/SDI .....	5
Annex A (informative)	Example sources .....	9
Annex B (informative)	Exposure calculations .....	12
Annex C (informative)	Average colour film sensitivities .....	13
Annex D (informative)	Average black-and-white printing paper sensitivities .....	14
Bibliography .....		15
