

ISO 7589:2002-02 (E)

Photography - Illuminants for sensitometry - Specifications for daylight, incandescent tungsten and printer

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	ISO sensitometric illuminants	2
4.1	General	2
4.2	ISO sensitometric daylight illuminant	2
4.3	ISO sensitometric studio tungsten illuminant	3
4.4	ISO sensitometric photoflood illuminant	3
4.5	ISO sensitometric printer illuminant	3
5	Camera films: Spectral distribution index (ISO/SDI)	3
5.1	General	3
5.2	Weighted spectral sensitivity values	3
5.3	Calculation of the ISO/SDI	3
5.4	Tolerances for ISO/SDI	4
6	Black-and-white papers: Spectral distribution index (ISO/SDI)	4
6.1	General	4
6.2	Weighted spectral sensitivity values	4
6.3	Calculation of the ISO/SDI	4
6.4	Tolerances for ISO/SDI	5
Annex A (informative)	Example sources	9
Annex B (informative)	Exposure calculations	12
Annex C (informative)	Average colour film sensitivities	13
Annex D (informative)	Average black-and-white printing paper sensitivities	14
Bibliography		15
