

ISO 2772:2019 (E)

Test conditions for box type vertical drilling machines — Testing of the accuracy

Contents

	Foreword
	Introduction
1	Scope
2	Normative references
3	Terms and definitions
4	Terminology, designation of axes and machine configurations
5	Preliminary remarks
5.1	Measurement units
5.2	Reference to ISO 230-1 and ISO/TR 230-11
5.3	Testing sequence
5.4	Test to be performed
5.5	Measuring instruments
5.6	Minimum tolerance
5.7	Levelling
6	Test conditions and permissible deviations
6.1	Table
6.2	Spindle
6.3	Drilling head (Z-axis)
Annex A	(informative) Terms in other languages
