Foreword 3

1 Scope 4

2 Normative references 4

3 Terms and definitions 5

4 Sampling 6

5 Test methods for normative properties 6
5.1 General 6
5.2 Chemical analysis 6
5.3 Open porosity 6
5.4 Mechanical properties 7

6 Test methods for informative properties 8
6.1 General 8
6.2 Density 8
6.3 Tensile strength 8
6.4 Tensile yield strength 8
6.5 Elongation 8
6.6 Young's modulus 8
6.7 Poisson's ratio 8
6.8 Impact energy 9
6.9 Compressive yield strength 9
6.10 Transverse rupture strength 9
6.11 Fatigue strength 9
6.12 Apparent hardness 10
6.13 Coefficient of linear expansion 10

7 Specifications 10

8 Designations 10

Annex A (normative) Designation system 36

Annex B (informative) Microstructures 39
