ISO/ASTM 52907:2019-11 (E)

Additive manufacturing - Feedstock materials - Methods to characterize metal powders

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 2

4 Technicalspecifications 2
4.1 General 2
4.2 Documentation and traceability 2
4.3 Sampling 3
4.4 Particle size distribution 3
4.5 Chemical composition 5
4.6 Characteristic densities 6
4.7 Morphology 7
4.8 Flowability 7
4.9 Contamination 8
4.10 Packaging, handling and storage 8
4.10.1 General 8
4.10.2 Packaging and handling 8
4.10.3 Storage 9

Annex A (informative) Examples of morphology 10

Annex B (informative)Exampleofcertificate 15
