

ISO/IEC 23510:2021-10 (E)

Information technology - 3D printing and scanning - Framework for an Additive Manufacturing Service Platform (AMSP)

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Overview	3
4.1	General	3
4.2	Stakeholders	3
4.3	Workflow	3
4.3.1	Introduction	3
4.3.2	Release of users' requirements	4
4.3.3	Model processing	4
4.3.4	Printing and delivery	5
5	Requirements	5
5.1	General	5
5.2	User management	5
5.3	Product design	5
5.4	3D intelligent detection and correction	5
5.5	Order management	5
5.6	Printing service	6
5.7	Security management	6
5.8	Operation monitoring	6
6	Framework	6
6.1	General	6
6.2	Functions of the layers	7
6.2.1	Resource layer	7
6.2.2	Technical support layer	8
6.2.3	Engine layer	8
6.2.4	Platform integration operating environment layer	8
6.2.5	Tool layer	9
6.2.6	Access layer	9
6.2.7	User layer	9
6.3	Correlation between framework and requirements	9
7	Considerations	10
7.1	Copyright protection	10
7.2	Quality inspection	10
Annex A (informative)	Use cases of an AMSP	11
