## Information technology - 3D printing and scanning - Framework for an Additive Manufacturing Service Platform (AMSP)

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Overview .....	3
4.1	General .....	3
4.2	Stakeholders .....	3
4.3	Workflow .....	3
4.3.1	Introduction .....	3
4.3.2	Release of users' requirements .....	4
4.3.3	Model processing .....	4
4.3.4	Printing and delivery .....	5
5	Requirements .....	5
5.1	General .....	5
5.2	User management .....	5
5.3	Product design .....	5
5.4	3D intelligent detection and correction .....	5
5.5	Order management .....	5
5.6	Printing service .....	6
5.7	Security management .....	6
5.8	Operation monitoring .....	6
6	Framework .....	6
6.1	General .....	6
6.2	Functions of the layers .....	7
6.2.1	Resource layer .....	7
6.2.2	Technical support layer .....	8
6.2.3	Engine layer .....	8
6.2.4	Platform integration operating environment layer .....	8
6.2.5	Tool layer .....	9
6.2.6	Access layer .....	9
6.2.7	User layer .....	9
6.3	Correlation between framework and requirements .....	9
7	Considerations .....	10
7.1	Copyright protection .....	10
7.2	Quality inspection .....	10
Annex A (informative)	Use cases of an AMSP .....	11
Bibliography .....		15
