

ISO/IEC 23510:2021-10 (E)

Information technology - 3D printing and scanning - Framework for an Additive Manufacturing Service Platform (AMSP)

| Contents | Page |
|--|------|
| Foreword | iv |
| Introduction | v |
| 1 Scope | 1 |
| 2 Normative references | 1 |
| 3 Terms and definitions | 1 |
| 4 Overview | 3 |
| 4.1 General | 3 |
| 4.2 Stakeholders | 3 |
| 4.3 Workflow | 3 |
| 4.3.1 Introduction | 3 |
| 4.3.2 Release of users' requirements | 4 |
| 4.3.3 Model processing | 4 |
| 4.3.4 Printing and delivery | 5 |
| 5 Requirements | 5 |
| 5.1 General | 5 |
| 5.2 User management | 5 |
| 5.3 Product design | 5 |
| 5.4 3D intelligent detection and correction | 5 |
| 5.5 Order management | 5 |
| 5.6 Printing service | 6 |
| 5.7 Security management | 6 |
| 5.8 Operation monitoring | 6 |
| 6 Framework | 6 |
| 6.1 General | 6 |
| 6.2 Functions of the layers | 7 |
| 6.2.1 Resource layer | 7 |
| 6.2.2 Technical support layer | 8 |
| 6.2.3 Engine layer | 8 |
| 6.2.4 Platform integration operating environment layer | 8 |
| 6.2.5 Tool layer | 9 |
| 6.2.6 Access layer | 9 |
| 6.2.7 User layer | 9 |
| 6.3 Correlation between framework and requirements | 9 |
| 7 Considerations | 10 |
| 7.1 Copyright protection | 10 |
| 7.2 Quality inspection | 10 |
| Annex A (informative) Use cases of an AMSP | 11 |
| Bibliography | 15 |
