

ISO/ASTM 52900:2021-11 (E)

Additive manufacturing - General principles - Fundamentals and vocabulary

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
3.1	General terms	1
3.2	Process categories	2
3.3	Processing: general	4
3.4	Processing: data	5
3.5	Processing: positioning, coordinates and orientation	7
3.6	Processing: material	10
3.7	Processing: material extrusion	11
3.8	Processing: powder bed fusion	12
3.9	Parts: general	14
3.10	Parts: applications	14
3.11	Parts: properties	14
3.12	Parts: evaluation	16
Annex A (normative) Identification of AM processes based on process categories and determining characteristics		17
Annex B (informative) Basic principles		20
Bibliography		25
Alphabetical index		26
