

ISO/ASTM 52920:2023-06 (E)

Additive manufacturing - Qualification principles - Requirements for industrial additive manufacturing processes and production sites

Contents	Page
Foreword	v
Introduction	vi
1 Scope	1
2 Normative references	1
3 Terms and definitions	1
4 Overview of AM related processes	2
5 Infrastructure of the part manufacturer	3
5.1 Environmental, health and safety (EHS).....	3
5.2 Waste disposal.....	3
5.3 AM system installation.....	3
5.4 Ancillary equipment.....	4
5.5 Feedstock storage.....	4
5.6 IT infrastructure.....	4
5.7 Foreign object debris (FOD).....	4
5.8 Provision of the process resources.....	4
5.9 Manufacturing management system.....	5
5.10 Maintenance/calibration system.....	5
6 Manufacturability assessment and review	5
6.1 General.....	5
6.2 Design assessment and review.....	5
6.3 Manufacturing assessment and review.....	6
6.3.1 Additive manufacturing process.....	6
6.3.2 Process finalization.....	6
6.3.3 Post processing.....	6
7 Qualification of the additive system operations	6
7.1 General.....	6
7.2 Scope of qualification.....	7
7.3 Validation planning.....	7
7.3.1 Process mapping.....	7
7.3.2 Risk assessment.....	7
7.3.3 Master validation plan.....	8
7.4 Qualification [installation, operation, and performance (IQ/OQ/PQ)].....	8
7.5 Manufacturing plan specification.....	9
7.6 Documentation and tracing of the process steps.....	10
7.6.1 General.....	10
7.6.2 Manufacturing plan.....	10
7.6.3 IQ documents.....	10
7.6.4 OQ/PQ documents for the complete process.....	11
7.7 Relevant process steps within the additive system operations.....	11
7.7.1 Overview of additive system operations.....	11
7.7.2 Requirements for pre-process: data preparation.....	11
7.7.3 Requirements for feedstock management.....	13
7.7.4 Requirements for pre-process: system set-up.....	15
7.7.5 Requirements for additive manufacturing: build cycle.....	16
7.7.6 Requirements for AM-process: process finalization.....	17

8	Quality assurance	19
8.1	General.....	19
8.2	Personnel requirements.....	19
8.3	Non-conformities	20
	8.3.1 General	20
	8.3.2 Acceptance criteria.....	20
	8.3.3 Handling of non-conformities.....	20
8.4	Continuous improvement process.....	21
8.5	Quality controls	21
	8.5.1 General	21
	8.5.2 Production run approval.....	22
	8.5.3 Part approval.....	23
	Annex A (informative) Requirements for Post-processing and part approval	24
	Annex B (informative) Supplementary information	26
	Bibliography	34
