DIN EN ISO/ASTM 52953:2026-01 (E)

Additive manufacturing for metals - General principles - Registration of data acquired from process monitoring and for quality control (ISO/ASTM 52953:2025)

Contents

Page

Foreword ... **iv**

Introduction ... **v**

1 Scope ... **1**

2 Normative reference ... **1**

3 Terms, definitions and abbreviated terms ... **1**
3.1 Terms and definitions ... 1
3.2 Abbreviated terms ... 2

4 Significance and use ... **3**

5 Data registration procedure ... **3**

6 Sensor categorization and metadata items ... **4**
6.1 Sensor categorization ... 4
6.2 Metadata in in-situ measurement ... 4
6.2.1 Laser-scanning-related data elements ... 4
6.2.2 Layer-wise images ... 5
6.2.3 Registering melt pool monitoring images ... 6
6.3 Ex-situ XCT measurements metadata elements ... 7
6.4 Sources of uncertainty ... 7

7 Data alignment with coordinate system transformations ... **8**
7.1 General ... 8
7.2 Methodology overview ... 8
7.3 Melt pool image, scan path, and layer-wise image alignment ... 10
7.3.1 General ... 10
7.3.2 Melt pool image to scan path alignment ... 10
7.3.3 Scan path to build platform alignment ... 12
7.3.4 Layer-wise image to the build platform alignment ... 13
7.4 Layer-wise images alignment ... 14
7.5 Layer-wise images to the related XCT model alignment ... 15
7.6 CMM Model to CAD model alignment ... 16
7.7 Global coordinate system ... 17

Annex A (informative) **Sensors and inspection systems categorization** ... **18**

Annex B (informative) **Examples of candidate global coordinate systems** ... **21**

Annex C (informative) **Edge fitting** ... **22**

Bibliography ... **24**
