Page

Foreword.....	iv
Introduction.....	v
1 Scope.....	1
2 Normative references.....	1
3 Terms and definitions.....	1
4 Standard practice for sampling specimens of AM-made sand moulds.....	1
4.1 Factors causing uneven properties in an AM-made sand mould.....	1
4.2 Sampling specimens of an AM-made sand mould.....	2
5 Test methods applicable to evaluating an AM-made sand mould.....	2
5.1 General.....	2
5.2 Requirements for sampling test specimens of an AM-made sand mould.....	2
5.3 Applicable test methods.....	3
5.3.1 General.....	3
5.3.2 Tensile strength test.....	3
5.3.3 Bending/transverse strength test.....	4
5.3.4 Gas permeability test.....	4
5.3.5 Thermal expansion test.....	4
6 Documentation.....	5
6.1 General.....	5
6.2 Purchasing an AM-made sand mould.....	5
6.3 Verifying AM machine performance.....	5
Annex A (normative) Identifier and orientation index of a specimen.....	7
Annex B (informative) Example of sampling test specimens and reporting table.....	8
Bibliography.....	13
