ISO/IEC 24956:2026-09 (E)

Information technology - 3D printing and scanning - Phantom-based evaluation methods for 3D printing modeling software

Contents

Page

Foreword ..... **v**

Introduction ..... **vi**

1 Scope **1**

2 Normative references **1**

3 Terms, definitions and abbreviated terms **1**
3.1 Terms and definitions 1
3.2 Abbreviated terms 3

4 Modelling phase considerations for quality control of 3D printing **3**
4.1 General 3
4.1.1 Background 3
4.1.2 Related works 3
4.2 Workflow and product quality 3
4.3 Image acquisition 4
4.4 Quality management of modelling software and modelling process 4
4.5 Segmentation 5
4.6 3D modelling 5
4.7 Editing and refinement 5

5 Quality requirements and recommendations for 3D modelling software **5**
5.1 Quality requirements and recommendations 5
5.1.1 General 5
5.1.2 Accuracy 5
5.1.3 Precision 5
5.1.4 User friendliness 5
5.1.5 Performance 6
5.1.6 Repeatability and reproducibility 6
5.1.7 Compatibility with medical 3D printing hardware and software 6
5.1.8 Regulatory compliance 6
5.2 Evaluation items 6

6 Precision or accuracy evaluation using phantoms **6**
6.1 Advantages of software testing methods using phantoms 6
6.1.1 General 6
6.1.2 Standardization 6
6.1.3 Objectivity 7
6.1.4 Realism 7
6.1.5 Repeatability and reproducibility 7
6.1.6 Cost-effectiveness 7
6.2 Required items for evaluation 7
6.2.1 Mandatory items 7
6.2.2 Optional item — CT phantom for 3D printing evaluation 8

7 Evaluation procedure and methods **8**
7.1 Preparation 8
7.2 Evaluation methods 8
7.2.1 Test phantom CT data 8
7.2.2 Segmentation function accuracy or precision test 8
7.2.3 3D reconstruction functional accuracy or precision test 9

8 Report **9**
Annex A (normative) **Measurement criteria and methods** **10**
Annex B (normative) **Measurement items on each phantom element** **12**
Annex C (informative) **3D modelling for part repair, remanufacturing** **15**
Annex D (informative) **Non-destructive, 3D scanning of internal and external geometries benefits of CT scanning** **17**
Annex E (informative) **Assessment metrics of image-based 3D modelling** **20**
Annex F (informative) **Evaluation report template** **21**
Bibliography **23**
