

DIN EN 13361:2013-11 (E)

Geosynthetic barriers - Characteristics required for use in the construction of reservoirs and dams

Contents		Page
Foreword		4
Introduction		5
1	Scope	6
2	Normative references	6
3	Terms, definitions and abbreviations	8
3.1	Terms and definitions	8
3.2	Abbreviations	9
4	Required characteristics and corresponding methods of test	9
4.1	General	9
4.2	Types of application	9
4.2.1	General	9
4.2.2	Application 1: "covered in service"	9
4.2.3	Application 2: "not covered in service"	12
4.3	Relevant characteristics	13
4.4	Characteristics relevant to specific conditions of use	18
4.4.1	General	18
4.4.2	Tear strength	18
4.4.3	Burst strength	18
4.4.4	Friction characteristics (direct shear and inclined plane tests)	18
4.4.5	Low temperature behaviour	18
4.4.6	Weathering	18
4.4.7	Resistance to wetting and drying	19
4.4.8	Freeze-thaw cycle resistance	19
4.4.9	Resistance to root penetration	19
4.4.10	Chemical resistance	19
4.5	Release of dangerous substances	19
5	Evaluation of conformity	19
5.1	Presentation of characteristics	19
5.2	Verification of values	19
5.3	Initial type tests	20
5.4	Factory production control	20
5.5	Inspection	21
6	Marking	21
Annex A (normative)	Factory production control -- Factory production control scheme	22
A.1	General	22
A.2	Product design	22
A.3	Production	22
A.3.1	Raw or incoming materials	22
A.3.2	Production process	22
A.4	Finished products	22
A.4.1	Raw or incoming materials	22
A.4.2	Alternative tests	25

A.4.3	Equipment	25
A.4.4	Provisions applicable to A.2, A.3 and A.4 (to be used where appropriate)	26
Annex B (normative) Durability of geosynthetic barriers		27
B.1	Introduction	27
B.1.1	Standards to which this annex is common	27
B.1.2	Mechanisms of degradation	27
B.1.3	Service life	28
B.1.4	Use of rework materials	28
B.2	Test requirements	28
B.2.1	General requirement	28
B.2.2	Requirements for repeat testing	28
B.2.3	Requirements for individual materials	29
B.3	Durability tests	30
B.3.1	Introduction	30
B.3.2	Weathering	30
B.3.3	Resistance to micro-organisms	32
B.3.4	Resistance to environmental stress cracking	32
B.3.5	Resistance to leaching	32
B.3.6	Resistance to oxidation	33
B.3.7	Chemical resistance	33
B.4	Evaluation tests and acceptance criteria	33
B.4.1	General	33
B.4.2	Evaluation by comparison of tensile properties	33
B.4.3	Evaluation by comparison of Oxidative Induction Time (OIT) values	34
B.4.4	Evaluation by change in mass	34
B.4.5	Evaluation by change in water permeability	34
Annex ZA (informative) Clauses of this European Standard addressing the provisions of the EU Construction Products Directive		35
ZA.1	Scope and relevant characteristics	35
ZA.2	Procedure for attestation of conformity of geosynthetic barriers	36
ZA.3	CE marking and labelling	38
