

ISO 21701:2019 (E)

Textiles — Test method for accelerated hydrolysis of textile materials and biodegradation under controlled composting conditions of the resulting hydrolysate

Contents

	Foreword
	Introduction
1	Scope
2	Normative references
3	Terms and definitions
4	Principle
5	Reference material
6	Apparatus
7	Test procedure
7.1	Preparation of test material
7.2	Preparation of the inoculum
7.3	Accelerated hydrolysis test (abiotic test)
7.4	Biodegradation test (biotic test) of hydrolysate
7.5	Gas chromatographic analysis
8	Calculation and expression of results
8.1	Amount of carbon dioxide in grams
8.2	Percentage of biodegradation
8.3	Validity of results
9	Test report
Annex A	(informative) Example of apparatus
Annex B	(informative) Example of accelerated hydrolysis test results
B.1	Test condition for accelerated hydrolysis test
B.2	Test results
