

DIN CWA 16633:2013-09 (E)

Ageing behaviour of Structural Components with regard to Integrated Lifetime Assessment and subsequent Asset Management of Constructed Facilities; English version CWA 16633:2013

Inhalt	Seite
Foreword	3
Introduction.....	4
1 Scope	5
1.1 Ageing model.....	5
1.2 Background – Asset management	6
2 Terms and definitions	9
3 Performance of bridge components.....	12
3.1 General	12
3.2 Service life expectancy vs. prognosis on remaining service life.....	12
3.2.1 Service life expectancy.....	12
3.2.2 Prognosis on remaining Service Life	14
Annex A (informative) Lifeline calculation	15
A.1 Example 1: Life expectancy	15
A.2 Example 2: Prognosis and affection of remaining service life	16
Annex B (informative) Benchmark values on Service Life in Bridge Components	18
Bibliography.....	22
