

DIN SPEC 3104:2019-04 (E)

Blockchain-based validation of data; Text in English

Contents

	Page
Forword	3
Introduction	4
1 Scope	5
2 Normative references	5
3 Terms and definitions.....	6
4 General characteristics of blockchain validation	8
5 Technical framework of blockchain validation.....	9
5.1 Steps of the blockchain validation process	9
5.2 Cryptographic components.....	10
5.2.1 Hash functions.....	10
5.2.2 Digital signatures	10
5.3 Output of the blockchain validation process.....	10
6 Technical framework of the verification of blockchain validation.....	11
6.1 Introduction.....	11
6.2 Steps of the verification of an existing blockchain validation	11
6.3 Elements of the verification of an existing blockchain time-stamp	12
6.3.1 Overview and application rules.....	12
6.3.2 Affirmation	12
6.3.3 Evaluating immutability (based on proof of work).....	12
6.3.4 Blockchain time-stamp accuracy	13
Bibliography	14
