

DIN SPEC 91441:2019-12 (E)

Packaging - Test method for determination of the peel strength of sealable packaging materials

Contents	Page
Foreword	3
Introduction	5
1 Scope	7
2 Normative references	7
3 Terms and definitions.....	7
4 Principle.....	12
5 Test method	12
5.1 Apparatus and test setup.....	12
5.2 Test samples	15
5.2.1 Sampling, number of samples and test samples	15
5.2.2 Conditioning.....	15
5.3 Test parameters.....	15
5.3.1 Test atmosphere.....	15
5.3.2 Pull-off angle.....	16
5.3.3 Pull-off speed.....	16
5.3.4 Preliminary force	16
5.3.5 Data logging rate	16
5.4 Procedure	16
6 Evaluation.....	16
7 Test report.....	19
Annex A (informative) Explanation of the test setup.....	20
A.1 Angular consistency	20
A.2 Calculation of separating path from test path.....	21
Bibliography	23
