

# DIN SPEC 92001-3:2023-08 (E)

## Artificial Intelligence - Life Cycle Processes and Quality Requirements - Part 3: Explainability; Text in English

---

Inhalt	Seite
Foreword .....	4
Introduction.....	6
1 Scope.....	7
2 Normative references .....	7
3 Terms and definitions.....	7
4 Life Cycle, Stakeholders, and Information Needs.....	9
4.1 General.....	9
4.2 AI System Life Cycle .....	9
4.3 Stakeholder Roles .....	9
4.4 Interactions & Information Needs .....	9
4.4.1 General.....	9
4.4.2 Develop.....	11
4.4.3 Provide.....	11
4.4.4 Use.....	11
4.4.5 Evaluate .....	12
5 Opacity .....	12
5.1 General.....	12
5.2 What is Opacity? .....	12
5.3 Sources of Opacity .....	12
5.3.1 General.....	12
5.3.2 Technical Illiteracy .....	13
5.3.3 Intentional Obfuscation.....	13
5.3.4 System Complexity.....	13
5.4 Effects of Opacity .....	13
5.4.1 Effects on Development.....	13
5.4.2 Effects on Provision .....	14
5.4.3 Effects on Use .....	14
5.4.4 Effects on Evaluation.....	15
6 Explainability.....	15
6.1 General.....	15
6.2 Explanation & Explainability .....	15
6.3 Explanans: Content and Form .....	15
6.4 Interpretation & Interpretability.....	16
6.5 When is explanation needed?.....	16
6.5.1 General.....	16
6.5.2 Reliability.....	17
6.5.3 Stakes .....	17
6.6 Risks of Explanation .....	17
7 Providing Explanations .....	18
7.1 General.....	18
7.2 Classification of Explanation Methods.....	18
7.3 Explanation Qualities.....	18
7.3.1 Explanation documentation.....	18
7.3.2 Fidelity and accuracy .....	19

7.3.3	Stability and consistency .....	19
7.3.4	Psychological appropriateness.....	19
7.3.5	Conceptual Alignment.....	20
7.3.6	Explanation Variety.....	20
7.3.7	Completeness.....	20
8	Explainability by Design .....	21
8.1	General .....	21
8.2	Requirement Analysis.....	21
8.3	Explanation Technical Design .....	21
8.4	Explanation Validation.....	22
	Bibliography .....	23
