

DIN SPEC 15801:2023-12 (E)

Entertainment technology - My virtual rig (MVR); Text in English

Contents

	Page
Foreword	7
Introduction	8
1 Scope	9
2 Normative references	9
3 Terms and definitions.....	9
4 MVR Definitions	10
4.1 General	10
4.2 File Format Definition.....	10
4.3 Generic Value Types.....	11
4.4 Node Definitions	12
4.5 GeneralSceneDescription Node	12
4.6 Node Definition: UserData.....	13
4.6.1 General	13
4.6.2 Node Definition: Data.....	13
4.7 Node Definition: Scene.....	13
4.8 Node Definition: AUXData	14
4.8.1 General	14
4.8.2 Node Definition: Symdef	14
4.8.3 Node Definition: Position.....	15
4.8.4 Node Definition: MappingDefinition	15
4.8.5 Node Definition: Class.....	16
4.8.6 Node Definition: Layers.....	16
4.9 Node Definition: ChildList	17
4.10 Node Definition for Parametric Objects.....	18
4.10.1 Node Definition: SceneObject.....	18
4.10.2 Node Definition: GroupObject.....	19
4.10.3 Node Definition: FocusPoint	20
4.10.4 Node Definition: Fixture.....	20
4.11 Node Definition: Truss.....	24
4.12 Node Definition: Support	25
4.13 Node Definition: VideoScreen	27
4.14 Node Definition: Projector	29
4.15 Other Node Definition.....	31
4.15.1 Node Definition: Matrix.....	31
4.15.2 Node Definition: Gobo.....	31
4.15.3 Node Definition: Sources	32
4.15.4 Node Definition: ScaleHandeling.....	33
4.16 Node Definition: Geometries	33
4.17 Node Definition: Symbol	33
4.18 Node Definition: Geometry3D	34
4.18.1 General	34
4.18.2 Supported 3D file formats	35
4.18.3 Node Definition: Projections	35
4.18.4 Node Definition: Addresses.....	36
4.18.5 Node Definition: Protocols.....	37

4.18.6	Node Definition: Protocol	37
4.18.7	Node Definition: Alignments.....	38
4.18.8	Node Definition: CustomCommands	39
4.18.9	Node Definition: Overwrites	39
4.18.10	Node Definition: Connections.....	40
4.18.11	Node Definition: Mappings.....	41
5	Communication Format Definition.....	42
5.1	General.....	42
5.2	TCP Mode of protocol.....	43
5.3	WebSocket Mode of protocol.....	43
5.4	Packet & Message definition.....	43
5.4.1	General.....	43
5.4.2	TCP Mode	44
5.4.3	WebSocket Mode	45
5.5	MVR_JOIN message	45
5.5.1	General.....	45
5.5.2	TCP Mode	45
5.5.3	WebSocket Mode	46
5.6	MVR_LEAVE message	50
5.7	MVR_COMMIT message.....	51
5.7.1	General.....	51
5.7.2	TCP Mode	52
5.7.3	WebSocket Mode	52
5.8	MVR_REQUEST message	55
5.9	MVR_NEW_SESSION_HOST message	59
5.9.1	General.....	59
5.9.2	Change Service URL/Name	59
5.10	Switch Mode of a Network.....	59
Annex A (informative) Object ID for Selection purposes		62
Annex B (informative) UUID purposes.....		63
Bibliography		64

Figures

Figure 1	— ScaleHandeling Node Attributes.....	33
Figure 2	— MVR-xchange mode of operation.....	42
Figure 3	— TCP mode: MVR-xchange client joining MVR-xchange group.....	46
Figure 4	— Websocket mode: MVR-xchange client joining MVR-xchange group.....	48
Figure 5	— MVR_LEAVE message to quit MVR-xchange group	50
Figure 6	— TCP mode: MVR-xchange client commits to MVR-xchange group.....	52
Figure 7	— Websocket mode: MVR-xchange client commits to MVR-xchange group.....	53
Figure 8	— Server makes the MVR_COMMIT itself, and only sends it to connected MVR-xchange clients	53
Figure 9	— Websocket mode: MVR-xchange client requesting file.....	57

Figure 10 — TCP mode: MVR-xchange client requesting file.....	58
---	----
