

DIN SPEC 91383:2024-08 (E)

JT Industrial Application Package (JTIAP); Text in English

| Inhalt | Seite |
|--|-------|
| Foreword | 4 |
| Introduction..... | 6 |
| 1 Scope..... | 9 |
| 2 Normative references | 9 |
| 3 Terms and definitions..... | 9 |
| 4 Support of industrial use cases and need for scope extension | 10 |
| 5 File format | 12 |
| 5.1 General..... | 12 |
| 5.2 File Structure — defined in PSI 14-1 | 13 |
| 5.3 File Header — defined in PSI 14-1 | 13 |
| 5.4 TOC Segment — defined in PSI 14-1..... | 13 |
| 5.5 Data Segment — defined in PSI 14-1..... | 13 |
| 5.6 Geometry Segment..... | 14 |
| 5.7 JT PMI Properties — defined in PSI 14-1 | 14 |
| 6 Enhancement of the ISO 14306 functionalities | 15 |
| 6.1 General..... | 15 |
| 6.2 Reading 10.5 JT — Format changes | 15 |
| 6.3 Polygon Set LOD Element..... | 15 |
| 6.4 Better compression | 15 |
| 6.4.1 General..... | 15 |
| 6.4.2 LMZA replaces ZLIB | 15 |
| 6.4.3 Enhanced Int32 Compressed Data Packet..... | 16 |
| 6.5 Enhanced Compressed Auxiliary Fields Array..... | 16 |
| 6.6 Rationalized Topomesh Compressed Rep Data | 16 |
| 6.7 Added Per Field Final Flags To JT Attributes..... | 16 |
| 7 JT and AP242 Domain Model XML..... | 16 |
| Annex A (informative) History and evolution of JT | 18 |
| Bibliography..... | 20 |
