DIN SPEC 92006:2026-02 (E)

Artificial Intelligence - Requirements for AI testing tools; Text in English

Inhalt

Seite

Foreword 4

Introduction 6

1 Scope 7

2 Normative references 7

3 Terms and definitions 7

4 Testing of AI Systems 10

5 Requirements for AI testing tools 12
5.1 General 12
5.2 Intended function fulfills objective 13
5.3 Correctness 13
5.4 Protection against alteration and falsification 13
5.5 Protection against loss 14
5.6 Use only by authorized persons 14
5.7 Documentation 14
5.8 Traceability 15
5.9 Reproducibility 15
5.10 Reliability 16

6 Recommendations for AI testing tools 16
6.1 Automatability 16
6.2 Adaptability by configuration 17
6.3 Interoperability 17

7 AI testing tool cards 17
7.1 General 17
7.2 Test Item 18
7.3 Test levels 18
7.4 Types of Testing 19
7.5 Test input data 20
7.6 Data requirements and characteristics 20
7.7 Output of AI testing tools 21
7.8 Trustworthiness dimensions 21
7.9 Task applicability 22
7.10 Model access 22
7.11 Testing techniques 23
7.12 Automatability of testing 24
7.13 AI lifecycle stage 24
7.14 Accessibility of the tool 25
7.15 Example of an AI testing tool card 25

Bibliography 27
