DIN SPEC 91493:2026-05 (E)

Preparation, utilization, and sorting accuracy requirements for recycled autoclaved aerated concrete

Contents

Page

Foreword 3

Introduction 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 5

4 Life cycle and recycling routes 6

5 Requirements for the purity of autoclaved aerated concrete waste or recycled autoclaved aerated concrete 8

6 Quality inspection and acceptance conditions 8

7 Processing into recycled autoclaved aerated concrete 8

8 Analytical methods and sampling 9

9 Maximum values of the eluate and solids parameters (environmental parameters) 9

10 Further requirements (technical parameters) 10

Bibliography 12
