

DIN SPEC 92007:2026-06 (E)

Artificial intelligence - Reference data sets - General requirements for test data sets; Text in English

| Inhalt | Seite |
|--|-------|
| Foreword | 4 |
| Introduction..... | 6 |
| 1 Scope..... | 7 |
| 2 Normative References..... | 7 |
| 3 Terms and Definitions | 7 |
| 4 Abbreviations | 11 |
| 5 Basic principles for test data | 11 |
| 5.1 General..... | 11 |
| 5.2 Requirement dimensions | 12 |
| 5.3 Test data definition, delimitation, and handling..... | 12 |
| 5.4 Structure of data | 13 |
| 5.4.1 General..... | 13 |
| 5.4.2 Data instance | 13 |
| 5.4.3 Dataset | 13 |
| 5.5 Operational Design Domain..... | 14 |
| 5.5.1 General..... | 14 |
| 5.5.2 ODD characterization..... | 15 |
| 5.5.3 Foreseeable operating conditions | 15 |
| 5.5.4 Edge and Corner Cases..... | 15 |
| 6 Content requirements (in-depth specifications) | 16 |
| 6.1 Relevance | 16 |
| 6.2 Representativeness | 17 |
| 6.2.1 General..... | 17 |
| 6.2.2 Aspects | 17 |
| 6.2.3 Assessment..... | 18 |
| 6.3 Freedom from errors (to the best extent possible) and Completeness | 18 |
| 6.3.1 General..... | 18 |
| 6.3.2 Aspects | 19 |
| 6.3.3 Assessment..... | 20 |
| 6.4 Data ethics, fairness, and privacy..... | 22 |
| 6.5 Requirements for content of metadata | 22 |
| 7 Technical requirements | 24 |
| 7.1 General..... | 24 |
| 7.2 Data principles | 24 |
| 7.2.1 General..... | 24 |
| 7.2.2 Recommendations on the use of Digital-SI data principles | 24 |
| 7.2.3 Recommendations on the use of FAIR data principles..... | 25 |
| 7.3 Requirements on machine-readable data structure..... | 25 |
| 7.4 Metadata requirements for the dataset | 26 |
| 7.5 Metadata requirements for the data instances..... | 26 |
| 8 Quality management and data governance requirements | 27 |
| 8.1 General..... | 27 |
| 8.2 Provision of documentation..... | 27 |

| | | |
|-------|--|----|
| 8.2.1 | General | 27 |
| 8.2.2 | Documentation for the implementation of the content requirements | 27 |
| 8.2.3 | Documentation for the implementation of the technical requirements | 28 |
| 8.3 | Versioning of data and documentation | 28 |
| 8.3.1 | General | 28 |
| 8.3.2 | Operational Considerations | 28 |
| 8.3.3 | Versioning and change management | 28 |
| 8.3.4 | Validation and release | 28 |
| 8.3.5 | Compliance and Traceability | 29 |
| 8.4 | Archiving and long-term availability | 29 |
| 8.4.1 | General | 29 |
| 8.4.2 | Storage and Redundancy | 29 |
| 8.4.3 | Documentation and Metadata | 29 |
| 8.4.4 | Retrieval and Restoration | 29 |
| 8.5 | Data handling | 30 |
| 8.5.1 | General | 30 |
| 8.5.2 | Impartiality | 30 |
| 8.5.3 | Confidentiality | 30 |
| 8.5.4 | Separation from AI system development | 31 |
| 8.5.5 | Roles and Responsibilities | 32 |
| 8.5.6 | Protection against tampering | 33 |
| | Bibliography | 34 |
